

The sky's the limit

Young people are leaders of today, not just tomorrow!

This lecture, introduced by the High Sheriff of Hertfordshire Lionel Wallace DL, will be presented by Guinness World Record holder – Travis Ludlow, who was the youngest person to complete a solo round the world flight in just 43 days, beating the world record by two weeks. Travis will talk about his vision, challenges and motivation to overcome the obstacles he faced.

This lecture will be of interest to students, staff and visitors and will illustrate what can be achieved by young people with focus, dedication and commitment.

30 March, 14.00

A154 College Lane, refreshments in foyer
